PERSONAL WEBSITE
- personal portfolio published as =exposition, visit it on: **https://dmsosa.com**

PROFESSIONAL SKILLS

- Developed and deployed websites for projects using the ReactJS framework along with HTML/CSS and JavaScript, such as this Resort's landing page: **https://quintaelrenacer.com**, which since created has increased the landlord's clientele over 200%.

- Custom websites using the ReactJS framework with HTML/CSS and JavaScript, such as this **realworld blog: https://dmsosa.github.io/dmblog/**, which allow users to interact with others with activities like writing, reading, comment articles and even following other users. Spring and PostgreSQL were used as backend solutions for the website's functionality.

- Website features such as responsiveness, CEO optimization and accessibility for all users, which increase customer engagement by 70%.

PROFILE

I am creative, driven front end engineer with a talent for quick development of elegant solutions to problems. I developed many projects online that are published on the web, they also can be found in my **GitHub** and **LinkedIn** profiles.

Focused on being a valuable part of any team, I am on and believe on the constant improvement of the team's performance, I am on constant improvement always looking for new challenges and projects to work in.
